

CHEF POWERSTATION

GOURMET FOOD & BEVERAGE WORKSTATION

Battery-Powered Mobile Kitchen

The DTG Chef PowerStation is the most advanced battery-powered mobile cart for made-to-order cooking, continuous refrigeration and POS transactions. It also brings the benefits of mobile food and beverage services to sports & leisure events, business and industrial facilities, health system campuses, micro markets, airline lounges and anywhere that advanced cooking, heating and refrigeration services may benefit from mobile delivery.

DTG's MPower Battery System is at the heart of every PowerStation

DTG MPower 3100 Battery

DTG MPower Battery System

- Features DTG's LFP (Lithium Iron Phosphate) battery chemistry for the safest, most reliable, most powerful, and cleanest energy source available.
- Delivers 220 V and 110 V power to service on-board equipment.
- Provides 4-8 hours of service between charges.
- Charges in less than 5 hours using standard 110 V service.

DTG's Chef PowerStation is perfect for Sports & Leisure, K-12 & Universities, Business & Industry, Healthcare, Micro Markets, Airline Lounges, and more!

CHEF POWERSTATION

ALL THE RIGHT FEATURES

The Chef PowerStation incorporates a self-powered, motorized, and automated brake/locking caster system for swift, safe, and easy transport between sites. It features a 27" commercial grade refrigeration system. Its rugged powder-coated steel frame will withstand harsh environmental conditions, while the Corian® countertops and retractable shelving provide work surfaces that exceed NSF food safety certification. It is highly configurable, customizable, and accessorized to satisfy a variety of food and beverage venues.
