

REFRIGERATION POWERSTATION

FRESH FOOD & BEVERAGE WORKSTATION

Battery-Powered Mobile Fresh Food & Beverage Stand

The DTG Refrigeration PowerStation is a commercial grade food and beverage service workstation. It is the most advanced battery-powered mobile cart for serving food and drinks wherever needed. This self-propelled station can easily be deployed swiftly and safely at sports and leisure events, airport lounges, pop-up and remote events, office buildings, school and hospital campuses, fairs and festivals, private events, micro markets, and more.

DTG's MPower Battery System is at the heart of every PowerStation

DTG MPower 3100 Battery

DTG MPower Battery System

- Features DTG's LFP (Lithium Iron Phosphate) battery chemistry for the safest, most reliable, most powerful, and cleanest energy source available.
- Delivers 110 V power to service on-board equipment.
- Provides 12-20+ hours of service between charges.
- Charges in less than 3 hours using standard 110 V service.

DTG's Refrigeration PowerStation is perfect for Sports & Leisure, Stadiums, Business & Industry, Micro Markets, Airline Lounges, and more!

REFRIGERATION POWERSTATION

MOBILE CONVENIENCE TO THE POINT OF DEMAND

The Refrigeration PowerStation incorporates a self-powered, motorized, and automated brake/locking caster system for swift, safe, and easy transport between sites. It features a 48" commercial grade fresh food and beverage refrigeration system. Its rugged powdercoated steel frame will withstand harsh environmental conditions, while the Corian® countertops and retractable shelving provide work surfaces that exceed NSF food safety certification. It is highly configurable, customizable, and accessorized to satisfy a variety of beverage-serving venues.

Features
