

# BARISTA POWERSTATION

SERVE PREMIUM COFFEE, ANYWHERE

## Battery-Powered Mobile Cafe

The DTG Barista PowerStation serves coffee lovers with premium freshly brewed café latte, cappuccino, macchiato, Americano, and espresso in less than a minute wherever it's needed. This self-propelled station can easily be deployed in airports, pop-up and remote events, office buildings, school campuses, fairs and festivals, private events, micro markets, and more.

DTG's MPower Battery System is at the heart of every PowerStation

DTG MPower 3100 Battery

## DTG MPower Battery System

- Features DTG's LFP (Lithium Iron Phosphate) battery chemistry for the safest, most reliable, most powerful, and cleanest energy source available.
- Delivers 220 V and 110 V power to service on-board equipment.
- Makes over 200 12 oz servings on a single charge.
- Provides 4-8 hours of service between charges.
- Charges in less than 5 hours using standard 110 V service.

DTG's Barista PowerStation is a self-powered mobile brewed beverage cart delivering premium cafe services to wherever you need it!

# BARISTA POWERSTATION

## UNMATCHED QUALITY AND MOBILITY

The Barista PowerStation incorporates a self-powered, motorized, and automated brake/locking caster system for swift, safe, and easy transport between sites. Its rugged powder-coated steel frame will withstand harsh environmental conditions, while the Corian® countertops and retractable shelving provide work surfaces that exceed NSF food safety certification. It is highly configurable, customizable, and accessorized to satisfy a variety of premium coffee venues.
