

**G5**  
Drive-Thru System

## Smart Technology for SOUND Drive-Thru Results

A complete drive-thru solution – designed to give you a competitive edge. Making sure drive-thru orders are handled fast and accurately is a sure way to keep your customers coming back.

Now, 3M science helps you tap the full profit potential of your drive-thru with a communications system that combines unmatched sound clarity with rock-solid reliability and ease of use.

The new 3M™ Drive-Thru System G5 is designed to keep your drive-thru moving quickly and ensure customers are getting exactly what they ordered. The result?

Happier customers. More operational efficiency. Lower costs. That's the genius of G5.

### The 3M™ DriveThru Basestation G5 features:

- A smaller footprint- Less wall space needed
- Built-in greeter and more messaging capability
- Dual lane functionality in a single base
- Ability to upgrade a single to dual lane on site, in minutes
- Compatible with G5 and XT-1 headset systems

Snap  
on the pod  
and say goodbye  
to downtime

## Self-service in a snap.

That's the genius of G5.

Take service into your own hands with the G5's unique modular headset design. You can quickly remove the control pod from the carrier and swap out a new carrier in seconds right in the store, saving you time and money. And every G5 headset system includes an extra carrier, so you can keep the orders coming without interruption.
