

TUP900

The Ultimate Wide Format Modular Kiosk Printer Solution

The TUP900 printing solution from Star Micronics brings the ultimate in flexibility and performance to kiosk printing. Its modular design simplifies integration with many different kiosk configurations.

The looping presenter of the TUP900 ensures jam-free operation by eliminating user access to the document while it is printing. The presenter also allows for the capture of documents which are not removed by the user.

Paper handling capabilities up to 6 inch diameter paper rolls (up to 10 inch with optional large paper roll holder) with widths from 80 to 112 mm give the TUP900 ultimate paper flexibility. The Large Paper Roll Holder combined with the looping presenter ensures many hours of unattended operation.

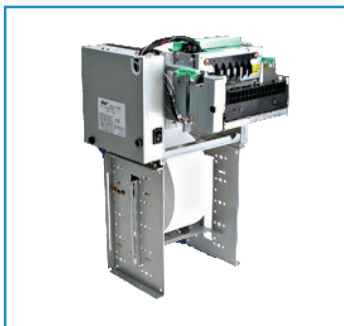

Features:

- Looping Presenter Virtually Eliminates Paper Jams
- Modular Design for Easy Integration
- Adjustable Print Width from 80mm-112mm
- High Speed: 150mm/s
- Available With or Without Presenter

Ideal for the Following Industries:

- Unattended Public Operation
- Ticketing
- Gaming
- Lottery
- Web Kiosks
- . . And More!

TUP900 Specifications

Features	Hardware High Speed Printing (150mm/s) Adjustable Print Width (80-112mm) Looping Presenter Virtually Eliminates Paper Jams Large Paper Roll Support (Up to 6" by Default; Up to 10 with Optional Holder) Modular Design for Easy Integration Reliable Guillotine Cutter Black Mark Sensor Swappable Communication Interfaces No Presenter Model Available	Software Logo Utility (Store Logos, Coupons, and Graphics) Memory Switch Configuration Setup Utility StarPRNT SDK
Connectivity Note: Connections in bold are supported; grayed-out connection types may be supported by special request	9-Pin Serial, 25-Pin Serial, Parallel, USB Ethernet	
Drivers	Windows 7 (32bit / 64bit) Windows 8 (32bit / 64bit) Windows 8.1 (32bit / 64bit) Windows 10 (32bit / 64bit)	OPOS™, JavaPOS™, USB Vendor Class, Linux™ CUPS, Mac OS X CUPS, StarIO SDK, Xamarin
