

MG-T Scales

THE MG-T SCALE LINE FOR RETAIL POS

Introducing Star's new line of mG-T point-of-sale scales, three NTEP and Measurement Canada certified scales measuring weight with Class III accuracy. Powered by AC, the mG-T series is effortless to set up, connecting to your POS system via Bluetooth or Serial connectivity and integrating easily with Star SDK. Value-driven, they simplify and streamline your point of sale, increasing customer satisfaction. These scales are great for the grocery industry, for produce, delis, salad bars, or for bulk sales of any kind, such as grains, nuts, dried fruit, candy, coffee or tea, and more. The mG Series of POS scales are also ideal for certain eCommerce applications, or for the cannabis industry, whether for use during cultivation or for packaging larger quantities of flower by weight.
